NEC® is a benchmark forsaftelectrical design, installation, and inspection to protect and property from electrical hazards. Revisions in 2017are are easy to identify - Gray shadows show technical changes, N icons mark Articles, text, tables, and new numbers. Bulletsshown where paragraphs are deleted. NEC 2017 includes the most advanced comprehensive regulations for cable, overcurrentprotection, grounding, and installation. Hundreds of updates and all new Articles pave the way for safer and more efficient installations. The first five articles include Energy Storage Systems (Article 706) and Direct Flow Microgrids (Article 712). New detailed labeling for arc flash hazard warning equipment protects workers. Revised provisions for AFCI and GFCIprotection and other changes help improve electricity and firesafety. the eRedBook® Mobile 3.0.17 APK Halliburton® Mobile app is offered as a free download. It comes from Halliburton Cementing Tables, a reference to theindustry selection data for calculations used indrilling, cementing and/or completing oil and gas wells. eRedBook®Mobile contains volume calculators as well as data from the American Petroleum Institute (API) for Casing, Tubing, Coil Tubingand Drill Pipe, with Halliburton eRedBook you can: • Haveinstant access to dimensions and key strengths for pipes, including pressurecollapse, inner diameter and weight. • Find uspecifications for the tubulars you use most often to quickly calculate the capacity and volume of annulars with just a few taps. • Viewvolume measurements and calculations in Metrics or British Imperialunits (including custom configurations) represented in the appropriate character and number formats. • Calculate total volume in different units of large (barrels, cubic feet, gallons, cubic meters, liters and more) • Calculate volume per depth in multiple units (barrels per foot, gallons per foot, liters per meter, and more)• Copy results with a single click. eRedBook® Mobile is easy to use and indispensable for on-the-go field engineers, business development, and engineering students. Contractor License Exam Preparation 3.2 APK This is a California Contractor Exam LicensePreparation Application. This application makes getting a contractor license in California a very simple process. This application provides very usefultools that simplify the licensing process. The application contains access to the following tool:Practice ExamsApplication VideosApplication Review SystemStudent's AccountThis app allows users to watch instructional videos for applicationhelp. These videos will guide users through the Californiacontractors licensing application process. Users can then take a picture of the finished app and upload it to their account for ContractorsIntelligence School staff to review the app and corrections. This correction can also be seen user account. The app allows users to take the Practical Exam. The application remembers, therefore there is no need for the user to log back in every time. So, if the user only has a few minutes to learn, the app allows him to take an exercise exam without wasting time. The app is available exclusively through Contractors IntelligenceSchool and requires users to have an existing account with the company or create a new account with the company. AnyCut APK This is an app for creating shortcuts, coming from anycut open source application. Easy one-touchandling, key to send a short message. And you can make ashortcut to any application to the desktop. Try it, maybe you'll like it... NetLoop VPN 5.0.4 APK NetLoop is formerlyknownasSimpleAndroid ServerThis application containing Proxy Server and aFreeVPN.VPN instead of a full-body VPN. It is notprovidingforsecuritybut for tunneling purposes if you use severortonpleaseemakemove proxy server that is inAPNSettings NetLoop. Failure to do this will cause some of your applications to not bypass vpnvpn features:• HTTP Request Compression•Ability to modify TCP connection parameters• Ability to use hotspots via VPN (Requires root)•Ability to use multiple concurrent connections to theVPNServersforthe best network usage experience Travel server balls:•Modify outgoing requests. •Specify an alternate proxy server to send requests through• provides alternate headers and the ability to stripeadersfromincominghttp responses• the ability to select the number of connections to be maintainedverbally (good for power management)•the ability to share configurations viaanyfiletransfermethod. • System-wide proxy serviceif you use this application with proxyserverfeature, ensure that serverfeatureisdisabled proxy device:to use the received config,json fileasthecurrentsetting;•find the device's serverfeatureisdisabled proxy:to use the received config,json fileastherentsetting;•find the received file use the file manager ofyourchoice•open the file manager sharing menu and selectseffileasconfigOR•Launch NetLoop and use Load ConfigThe Profiles Feature allows andaeasilyswitchbetweenconfigurations when using NetLoopEnjoy!! FREE WiFi Password Recovery 4.3 APK Need to reconnect your new device to WiFinetwork, but forgot your password? Want to share your character ofrandom's WiFi password with your friends? Use Free WiFi Password Recovery to back up all the WiFi passwords on your device, and recover them when you need them with just one click! Share with friends via SMS or email, yes that's easy! FREE WiFi Password RECOVERY FEATURES: ■ SIGN UP, BACKUP && RESTORE all network passwords (WiFi) stored on your device! ■ SSID and Password on full screen (for easy viewing andsharing with others) ■ Copy WiFi Password to Clipboard (to be pasteananywhere) ■ Show QR Code (to scan other devices and access thenetwork) ■ Share passwords via SMS or EmailPlease Note that Free (1) only works on rooted devices(need super-userpermissions). (2) not a WiFi WiFi password It is NOT intended to solve WiFinetworks. (3) requires prior access to a WiFi network with the password to retrieve your device. □ Please understand that FREE WiFi Password Recovery is freeapp and contains advertisements to support development costs. For ad-free apps, we have a paid version - check out on the Play Store. ♦♦ Why Does FREE WiFi Password Recovery only work on rooteddevice? Because your device stores a WiFi password when you connect to a NewWiFi network. You can't access passwords and retrieve passwords unless you have super user permissions. See here for more information on root: ♦♦ Feel free to contact(goldenopportunity2@gmail.com) for any problems you may have; and dogive us 5 stars if you like us! Thank you && Enjoy! XAPK Installer 1.4 APK Say goodbye to Android APK OBB Installation error problem, XAPKInstaller makes it easier and faster than ever. • Scan and preview all .apk files on your phone and SD Card • Remove or install APK, XAPK (APK with cache data or obb files)automatically • Download XAPK, APK online with your Android phone and installtabletXAPK for PC available that allows you to install.apk files from Windows XP, Vista, 7, 8, 8.1 to Android devices. Learn More: Http://apkpure.com/apk-install.htmProblems download or install an APK with the XAPK Installer? See need any more help? Please let us know more about the problem on Facebook. 360 Security -Antivirus Free, Booster, Space Cleaner APK Free Security Protection, Speed Booster andJunk Cleaner for Android Phones Trusted by 200 million users, Security 360 is an all-in-onepower #1 cleaner, smart speed amplifier and antivirus app that optimizes your background apps, memory storage, junk files & battery power, keeping your device safe from viruses and trojans. Download the optimization app && This advanced master super cleaner security is intuitively designed to protect your handheld style in just one tap, making your phone run like new all the time. Why 360 Security is a MUST-HAVE app?★Sanat this is an Effective Space Speed Booster && Smart Cleaner-Lackingfor new apps and photos? Just clear the cache of apps and junk files, upgrade your phone with ONE click!★The only Smart Battery Saver- Battery drains faster than ever? Undeleter Recover Files scan; Data 5.0 APK Scan for and recover deleted files from memorycards and internal storage on rooted devices. Without jailbreak/root = access, Undeleter can only scan appches for images. READ BELOW FOR INFORMATION ON ROOT. For us, the app will recover all the image file types it support and all kinds of data, including SMS, call logs, and WhatsApp orViber conversations. It will also destroy and remove the safe. Unlock to restore other supported files, remove reliable ads and background scans.*ROOT/SUPERUSER PERMISSIONS require that you modify the operating system on your device, visit this website for more information: more: caches can contain images that cannot be found: you may find photos shared with you on social media but you never open them, or lower quality copies of them that you have now or have deleted in the past. They may also be images that have been preloaded by your browser or other apps on your device - even pictures of people you don't know. They can be filtered using Hide existing files. File type: Journal scanning can find files with any extension imaginable. Basically these files are still in yourvolume with their data in the allocated sector. Journal scanning is only available on EXT4 and downgraded file systems. Heuristic deep scanning scans and recovers the following file types: BMP, JPEG/JPG, PNG, MNG, JNG, GIF, MP4, AVI, MKV, MP3,OGG, OGM, WAV, FLAC, AMR, MP4A, PDF, SXD, SXI, SXC, SXW, ODT, ODG,ODS, ODP, DOCX, XLSX, PPTX, ZIP, TOPLES, APK, EPUB. Data scanning is available for a limited number of applications, including system phone and SMS apps. Jpeg will be recovered in forms or HTML files for WhatsApp and Viber, as we cannot merge party catalogs. Shred/secure deletion: Files found on free disk areas can be deleted in bulk using the Shred function. You can also use the Share menu throughout thesystem to securely delete files directly through another app, for example by opening a gallery, selecting a number of images, pressing the Share button and selecting Securedetele.ACCOUNT - required for Google Drive and Dropbox uploadCALL /SMS - required for the app's data scanner - deleted SMS and calllogsLOCATION - for Ads Master Security - Antivirus, VPN, AppLock, Booster APK The original CM Security upgraded to thewhole new Security Master Antivirus&& VPN (by CM, Cheetah Mobile) and redefined Scalp Phone Security; protect not only your phone but also your privacy instead of providing all popularfeatures, Security Master Antivirus&& VPN(by CM) introducesIntelligent Diagnosis to detect the status of your phone and advises neededsolution, including Antivirus, Junk Clean, and Phone Booster (Battery Saver, and CPU Cooler) on time. In addition, westrengthened privacy protection by creating a shield for allonline activities through SafeConnect VPN.★SafeConnect VPNSecurity Master Antivirus&& VPN (by CM) presents the most attractive free VPN, proxy && unblock solution. With SafeConnect VPN, you can deploy virtual locations to increase security and access your favorite content freely. Security MasterAntivirus&& VPN(by CM) now not only your device, but theprotection extends to online data transmission to prevent leakage of banking information, private messages, and browsing history. (Will soon be available worldwide.) ★Intelligent Diagnosis Design of our famous big button is upgraded to the most needed solution of intelligent diagnosis. All solutions for your phone is safe, clean, and optimized like a new phone, including batteries. Antivirus - Security Master Antivirus&& VPN(by CM) complements the most #1 antivirus #1 software. It detects 100% viruses && malware with custom scanning and removing &&viruses; Malware. It protects your phone as well as your personal information against malware, spyware, and hackers. Junk Clean - The phone saves junk files automatically from time to time. Security Master Antivirus&& VPN(by CM) detects this problemand frees up storage when needed. One tap to clear the && cache junkfiles at once. The smartest way to clean and optimize your phone. Phone Upgrades, Battery Saver, and CPU Coolers – Your phone can't perform best if it stays at high temperature or highmemory usage. Especially when charging the battery and playing games, it keeps an eye on the phone && battery life and keep your phone cool, fast, and save more battery life.★Message SecurityWorry about others snooping on your message notifications? SecurityMaster Antivirus&& VPN(by CM) hides timely notifications to protect your privacy with Message Security. It gathers all chatnotifications into one and makes it easier to read &&★AppLockSecurity Master Antivirus && VPN (by CM) protects app privacy by AppLock. You can lock anything you want to protect, such as aBluetooth && switch Wi-Fi, incoming calls, the latest apps, settings, photos, WhatsApp, or any app you choose. In addition, notification previews can also be locked so no one can see which apps you're using or who you're chatting with. With Applock, you can lock your app with a pattern, PIN code, or flashprint. Fingerprint locks are supported on Samsung or Androiddevices 6.0 and above that are equipped with a fingerprint sensor. You can also adjust the re-lock time to lock back on the device screenoff so you don't have to unlock every time you launch the app. Intruder Selfie - Security Master Antivirus&& VPN(by CM) protects the privacy of snoopers. If someone tries to unlock your app with the wrong password, an intruder photo will be automatically taken and an intruder alert will be sent to you via email. Itkeeps your phone is secure and further informs who the intruder is. Incognito cover - Security Master Antivirus && VPN (by CM) disguises the screen so that no one realizes you're using AppLock while keeping it secret && your privacy. You can protect it without your parents, spouse or children knowing. Themes – You can choose a lock screen style from hundreds ofAppLock themes or customize it to your photos. Color Status Bar 0.7.7 APK app status bar. Decorate as the desired color and shape. A new world is coming.*** No Root Required! Support:Mixing colors and changingPosition as middle clock. Displays the battery percentage. The update continues! Thank. You. You.
